Background

The Union of International Associations has been providing information on scheduled future international meetings of international organizations (governmental and nongovernmental) for 50 years (listing over 10,000 future meetings every year). Earlier data collection by the UIA covers meetings back to 1681. The meetings profiled are the key meetings of international associations and intergovernmental bodies, whether regional or multi-continental. Also included are national meetings with a large international participation. The meetings database currently covers some 200,000 meetings back to 1986 but earlier years (and centuries) are being progressively adapted to online access. The meetings data compiled by the UIA is analyzed in great detail in an extensive annual report (*International Meetings Statistics*) provided to UIA Associate Members as part of their subscription. This statistical review is also available to the general public three months after it has been released to the Associate Members.

The *International Congress Calendar* is available by subscription on-line or in pdf format. For more information on subscriptions or on UIA Associate Membership, please contact Christine Chantraine (chrisc@uia.be) or see our website: <http://www.uia.org/meetings/>

This volume

This volume includes about 7,000 announcements of current and future international congresses, conferences, meetings, and symposia sponsored or organized mainly by international organizations. Each announcement is included in all three sections of this volume: geographical, chronological and analytical. Additions and modifications to announcements made since the previous volume are specially indicated.

During the preparation of the four volumes published each year over 10,000 announcements of future international meetings are processed by the editors. Information is derived from primary sources collected directly from the meeting organizers, often in response to questionnaires addressed to them.

Thanks are due to the many international organizations and other bodies whose cooperation make the production of this Calendar possible.

Although every effort is taken in preparing the Calendar, the editors cannot be responsible for inaccuracies or omissions.

Historique

Depuis 50 ans, l'Union des Associations Internationales publie des informations sur les futures réunions internationales (gouvernementales et non-gouvernementales) reprenant ainsi plus de 10.000 réunions chaque année. Le passé de la base de données des réunions remonte jusqu'en 1681. Celles-ci appartiennent aux associations internationales et aux organes intergouvernementaux tant régionaux que multi-continentaux. Les réunions nationales à large participation internationale sont également prises en compte. La banque de données contient environ 200.000 réunions depuis 1986. Les données concernant les années antérieures (ainsi que les siècles) seront progressivement adaptées pour être accessibles en ligne. Ces réunions rassemblées par l'UAI font l'objet d'une analyse détaillée dans un rapport annuel (*International Meetings Statistics*) destiné aux membres associés de l'UAI dans le cadre de leur souscription. Ce dernier sera disponible au public 3 mois après sa distribution aux membres associés.

L'*International Congress Calendar* est disponible en souscrivant en ligne ou en format PDF. Pour de plus amples informations sur les souscriptions ainsi que sur les membres associés, veuillez contacter Christine Chantraine (chrisc@uia.be) ou consulter notre site internet: <http://www.uia.org/meetings/>

Ce volume

Ce volume inclut environ 7.000 annonces des réunions, congrès, conférences et symposiums internationaux organisés ou sponsorisés principalement par les organisations internationales et ce jusqu'aux dates les plus éloignées. Chaque annonce figure dans les trois sections de la publication: géographique, chronologique et analytique. Les nouvelles informations et les modifications faites depuis le volume précédent sont marquées d'un signe spécial

Dans la préparation des quatre volumes publiés chaque année, plus de 10.000 annonces de réunions internationales sont traitées. Les informations sont recueillies directement auprès des organisations internationales par le biais de questionnaires qui leur sont régulièrement adressés.

Les organisations internationales et autres groupements qui ont transmis les informations permettant la publication de ce Calendrier en sont vivement remerciés.

Bien que le plus grand soin ait été apporté à la rédaction de cette édition, les éditeurs ne peuvent être tenus responsables d'éventuelles erreurs ou omissions.

User guide

This Calendar is divided into three sections.

Geographical section

Events are listed by country in which they will take place, and, within each country, by city, and within each city, by date.

Countries and cities are listed in alphabetical order, dates in chronological order of starting date. Entries include:

- opening and closing dates, city, and country of the event
- name(s) and address(es) of the organizing body or bodies
- type of event
- theme
- estimated number of participants
- number of countries represented
- concurrent exhibition (if any)
- reference number of the international organization in the *Yearbook of International Organizations*
- an indication if the information has been added or modified since the previous volume

Chronological section

Events are listed by date on which they will open, and, within each date, by country, and within each country, by city. Dates are listed in chronological order, countries and cities in alphabetical order. Entries include:

- opening and closing dates, city, and country of the event
- name(s) of the organizing body or bodies
- type of event
- theme
- estimated number of participants
- number of countries represented
- concurrent exhibition (if any)
- reference number of the international organization entry in the *Yearbook of International Organizations*
- whether the information has been added or modified since the previous volume

Addresses are not included in this section; they can be found by referring to the event's entry in the geographical section.

Analytical index

Including significant keywords:

- in the organization name
- in the event name
- in the theme of the event

Each index entry includes the country, city, and date of the event so that further information can be found by referring to the geographical and chronological sections.

Key to codes and abbreviations

- (M) = Modification(s) to information published in the previous volume
- (N) = New entry, not published in previous volumes
- (X) = Event has been cancelled
- P = Estimated number of participants
- C = Estimated number of countries represented
- Ex = Concurrent exhibition
- (AA1234) = The permanent reference number allotted by the UIA to the international organization, also found in the *Yearbook of International Organizations* on the last line of each description. (In the *Yearbook*, the organizations are listed in alphabetical order.) The titles of organizations included in the *Yearbook* are printed in bold characters in this Calendar.

Mode d'utilisation

Les informations sont regroupées en trois sections.

Section géographique

Les événements sont classés par pays dans lesquels ceux-ci ont lieu, dans chaque pays par ville, dans chaque ville par date. Les pays et les villes sont classés par ordre alphabétique, les dates par ordre chronologique suivant la date de début de la réunion. Sont indiqués:

- les dates, le pays et la ville de l'événement
- nom(s) et adresse(s) de l'organisateur ou des organisateurs
- type de réunion
- thème
- nombre de participants attendus
- nombre de pays représentés
- mention d'une exposition conjointe s'il y a lieu
- le numéro de référence de l'organisation internationale dans le *Yearbook of International Organizations*
- indication si l'information a été ajoutée ou modifiée depuis le volume précédent

Section chronologique

Les événements sont classés par date de début de la réunion, dans chaque date par pays, dans chaque pays par ville. Les dates sont classées chronologiquement et les pays et les villes alphabétiquement. Sont indiqués:

- les dates, le pays et la ville de l'événement
- nom(s) de l'organisateur ou des organisateurs
- type de réunion
- thème
- nombre de participants attendus
- nombre de pays représentés
- mention d'une exposition conjointe s'il y a lieu
- le numéro de référence de l'organisation internationale dans le *Yearbook of International Organizations*
- indication si l'information a été ajoutée ou modifiée depuis le volume précédent

Les adresses ne sont pas incluses; on peut les trouver dans la section géographique.

Index analytique

Incluant les mots-clés:

- du titre de l'organisation
- du nom de la conférence
- du thème de la conférence

Chaque notice inclut une référence au pays, à la ville et à la date de la conférence afin qu'on puisse se référer aux sections géographique et chronologique.

Explication des abréviations utilisées

- (M) = Modification(s) aux informations publiées dans le volume précédent
- (N) = Nouvelle notice paraissant pour la première fois
- (X) = Réunion annulée
- P = Nombre de participants attendus
- C = Nombre de pays représentés
- Ex = Organisation d'une exposition conjointe
- (AA1234) = Le numéro de référence permanent attribué par l'UIA à l'organisation internationale, mentionné également dans le *Yearbook of International Organizations* en dernière ligne de chaque notice. (Dans le *Yearbook*, l'ordre de présentation est alphabétique.) Dans ce Calendrier, les organisations figurant dans le *Yearbook* sont reprises en caractères gras.

Geographical Section

In this section events are listed by country in which they will take place, and, within each country, by city, and within each city, by date. Countries (see list below) and cities are listed in alphabetical order, dates in chronological order of starting date.

Entries include:

- opening and closing dates, city, and country of the event
- name(s) and address(es) of the organizing body or bodies
- type of event
- theme
- estimated number of participants
- number of countries represented
- concurrent exhibition (if any)
- reference number of the international organization in the *Yearbook of International Organizations*
- an indication if the information has been added or modified since the previous volume

Note

The geographical names used in this book are chosen for the sake of brevity and common usage. Wherever possible, the country (or territory) name preferred by the organization concerned is used, providing this is possible within the limits of standardization required for mailing or statistical purposes. It is important to note that some organizations insist on the inclusion of territories on the same basis as countries, or on the inclusion of countries or territories which are not recognized by other organizations. It is not the intention of the editors to take a position with regard to the political or diplomatic implications of geographical names or continental groupings used.

Section géographique

Dans cette section, les événements sont classés par pays dans lesquels ceux-ci ont lieu, dans chaque pays par ville, dans chaque ville par date. Les pays (voir la liste ci-dessous) et les villes sont classés par ordre alphabétique, les dates par ordre chronologique suivant la date de début de la réunion.

Sont indiqués:

- les dates, le pays et la ville de l'événement
- nom(s) et adresse(s) de l'organisateur ou des organisateurs
- type de réunion
- thème
- nombre de participants attendus
- nombre de pays représentés
- mention d'une exposition conjointe s'il y a lieu
- le numéro de référence de l'organisation internationale dans le *Yearbook of International Organizations*
- indication si l'information a été ajoutée ou modifiée depuis le volume précédent

Note

Le choix des noms géographiques – pays ou territoires – dans cet ouvrage est fait en fonction de leur brièveté et de l'usage commun. Dans la mesure du possible, c'est le nom tel qu'adopté par l'organisation qui est retenu, mais seulement dans les limites d'une normalisation nécessaire pour les services postaux ou les statistiques. Il est important de rappeler que certaines organisations insistent sur l'inclusion de territoires au même titre que les pays ou sur l'inclusion de pays et de territoires qui ne sont pas reconnus comme tels par d'autres organisations. Il n'entre pas dans les intentions des éditeurs de prendre position au regard des implications politiques ou diplomatiques résultant du choix et de l'utilisation des noms géographiques ou de groupements continentaux.

Analytical Index

This index lists, in alphabetical order, significant keywords from:

- the name of the international organization responsible for or sponsoring the event
- the name of the sub-commission of the organization specially responsible for the event
- the name of the national organization responsible for the event
- the name of the event
- the theme of the event

The words in the item have been "rotated" to bring each successive keyword into the first position.

Each index entry includes the country, city, and date of the event so that further information can be found by referring to the geographical and chronological sections.

Names of international organizations listed in the *Yearbook of International Organizations* are printed entirely in bold. An entry line may also include the name of any organizing sub-commission or national body. These are followed by an "*" which is in turn followed by the name of the meeting, except where the entry is itself the name of the meeting.

Where at least the first two keywords of consecutive lines are identical, these have been placed on a separate line.

Keywords appearing in a large number of entries but with little significance outside the context are *excluded* as first keywords (eg "Annual", "Congress", "Statutory"), as are entries composed entirely of such words (eg "Biannual conference", "Executive meeting", "Joint seminar"). Also omitted from the index entry are common prepositions, articles, etc. The word "international" has been abridged to "Int".

Note: Index entry lines are truncated, as are the names of countries and cities. Sufficient information is provided to allow the user to refer to either the geographical or chronological sections, where complete details may be found.

Index analytique

Cet index inclut, par ordre alphabétique, les mots-clés dérivés du:

- nom de l'organisation internationale organisant et/ou patronnant la réunion
- nom des sous-commissions d'organisations spécifiquement responsables pour la réunion
- nom des organisations nationales responsables pour la réunion
- titre de la réunion
- thème de la réunion

Les mots dans les différents titres ont subi une "rotation" afin de mettre chaque mot-clé en première position.

Chaque notice inclut une référence au pays, à la ville et à la date de la réunion afin que l'on puisse se référer aux sections géographique et chronologique.

Les titres des organisations internationales mentionnées dans le *Yearbook of International Organizations* sont présentés en caractère gras. La ligne peut comprendre le nom de la sous-commission organisatrice ou de l'organisation nationale. Ceux-ci sont suivis d'un "*" qui est, à son tour, suivi du titre de la réunion, sauf si la ligne commence avec ce titre.

Dans le cas où deux mots-clés identiques se suivent, ils sont placés sur une ligne à part.

Les mots-clés mentionnés dans un grand nombre de notices mais qui, hors contexte, n'ont que peu de sens sont *exclus* comme premier mot-clé (par ex. "Assemblée", "Comité", "Général"); également les notices composées exclusivement de tels mots (par ex. "Académie régionale", "Réunion régulière", "Séance plénière"). Ont été également écartés de l'index les prépositions, conjonctions, articles, etc. Le mot "international" a été abrégé en "int".

Note: Le texte est tronqué, ainsi que les noms de pays et de villes. Toute l'information nécessaire est fournie à l'utilisateur afin qu'il puisse se référer aux sections géographique et/ou chronologique où il trouvera les renseignements complets.
