La série YEARBOOK

Tous ces publications sont également disponibles en ligne. Pour plus d'informations, veuillez consulter <http://www.uia.org/>

VOLUME 1 (Parties 1A et 1B): DESCRIPTIONS DES ORGANISATIONS ET LEURS LIENS

Descriptions des organisations intergouvernementales et non-gouvernementales qui couvrent tous les domaines d'activités. Présentation par ordre alphabétique des titres.

Contenu des descriptions: Les descriptions contiennent les éléments suivants: titres de l'organisation dans toutes les langues appropriées; adresse principale et adresses secondaires; principales activités et programmes; personnel et finances; commissions régionales et techniques; historique, buts, structure; liens avec d'autres organisations; langues utilisées; membrariat par pays.

Références croisées: Des références croisées à des organisations apparentées sont intégrées dans la séquence alphabétique des descriptions. L'accès à ces organisations est possible via les titres d'organisations en anglais, français et autres langues de travail, ainsi que via leurs initiales ou abréviations dans diverses langues.

VOLUME 2: INDEX GEOGRAPHIQUE – REPERTOIRE DES SECRETARIATS ET MEMBRARIATS PAR PAYS

- Organisations classées selon le pays siège de leur secrétariat
- Organisations classées selon les pays de leurs membres
- Statistiques: par pays et par ville

Peut-être utilisé pour localiser des organisations internationales par pays de secrétariat ou de membrariat. Chaque organisation est reprise avec son adresse complète.

VOLUME 3: RESEAUX D'ACTION GLOBALE – REPERTOIRE THEMATIQUE ET INDEX

- Organisations classées par sujet
- Organisations classées par région
- Organisations classées par catégorie
- Statistiques par sujet
- Index (avec commentaires introductifs):
 - mots clés (dans toutes les langues de travail)
 - mots clés dans le nom des organisations (français et anglais)

Regroupe les organisations internationales en catégories de sujets. Ces catégories, générales ou spécifiques, peuvent être utilisées comme index aux notices du Volume 1. Chaque organisation est reprise avec son adresse complète.

VOLUME 4: BIBLIOGRAPHIE ET RESSOURCES DES ORGANISATIONS INTERNATIONALES

- Bibliographie des études sur les organisations internationales sans but lucratif
- Publications des organisations
- Indexes

Regroupe les publications principales et périodiques des organisations internationales, de même qu'une information bibliographique sur des études réalisées sur les ONG.

Notes to the user

To find the description of an organization in the Yearbook:

- **If you know the name or abbreviation of the organization:**
Locate the organization in the alphabetic sequence in Volume 1. All names in all official languages and abbreviations are included in the alphabetic sequence. Note that the alphabetic sequence does not take account of prepositions or articles.
You may find the name in the form of a cross-reference to the sequence number where the description is given. The sequence number follows the alphabetic order.
- **If you know keywords in the name of the organization:**
Consult the index in Volume 3. It will refer you to the sequence number of the description in Volume 1.
- **If you know the field in which the organization is active (eg its aims or activities):**
Consult the classified list of organizations by subject in Volume 3. It will refer you to the the sequence number of the description in Volume 1.
- **If you know where the organization is located, or where it has members:**
Consult the listing of organizations by country in Volume 2. This will refer you to the sequence number of the description in Volume 1.
- **If you know the name of the principal officer of the organization:**
Consult the officer's biographical description in Volume 6. This will refer you to the sequence number of the description in Volume 1.
- **If you know the name of another organization that has a formal relationship with the one you want:**
The description of the other organization in Volume 1 will refer you to the sequence number of the description of the organization you want in Volume 1.

Note that, due to the limitations of printing and binding, this volume does not include full descriptions of all organizations. All descriptions can be found in the on-line version.

Notes pour l'utilisateur

Pour trouver la notice descriptive d'une organisation:

- **A partir du nom (ou de son abréviation):**
Consultez d'abord la séquence alphabétique du volume 1. Les noms et abréviations y sont repris dans toutes les langues officielles.
Vous constaterez que la séquence alphabétique ne tient pas compte des prépositions et articles.
Le nom que vous recherchez peut vous renvoyer à un numéro de séquence sous lequel est reprise la notice descriptive de l'organisation. La numérotation suit l'ordre alphabétique.
- **A partir d'un mot clé:**
Consultez l'index dans le volume 3 qui renvoie au numéro de séquence de la notice descriptive dans le volume 1.
- **A partir d'un sujet ou d'une matière spécifique:**
Consultez la liste classifiée par sujet dans le volume 3. Cette liste renvoie au numéro de séquence de la notice descriptive du volume 1.
- **A partir d'un pays:**
Consultez la liste par pays de secrétariat et de membrariat dans le volume 2. Cette liste renvoie au numéro de séquence de la notice descriptive du volume 1.
- **Si vous connaissez le nom du responsable principal de l'organisation:**
Consultez la description biographique du responsable dans le Volume 6. Celle-ci vous dirigera vers le numéro de séquence de la description dans le Volume 1.
- **A partir d'une organisation en relations officielles avec celle que vous cherchez:**
La description de la première dans le volume 1 vous donnera le numéro de notice de la deuxième dans ce même volume 1.

A noter qu'à la suite de limitations d'impression et de reliure ce volume ne comprendra pas toutes les descriptions détaillées de toutes les organisations. Toutes les descriptions sont reprises dans la version on-line.

How to use this volume

The intention of Volume 3 is to group organizations with common aims or activities. If the title is known, it is often simpler to refer directly to the Volume 1, where a full description can be found. However, where an exact title is not known, an organization may be traced by a keyword in its title or via the group of organizations listed under a relevant subject heading.

In the first part of this volume, the Subject Directory, classified entries are grouped alphabetically by subject within major subject groupings which themselves appear in alphabetic order. It is therefore possible to turn directly to a subject without recourse to the second part of this volume, the Index. If the term sought does not appear as a subject heading, the index can be used to locate the heading under which it is classified.

Subject directory

Inclusion: This volume lists, for each subject category, the international organizations having keywords in their names corresponding to that subject. In the case of some international organizations, although such a keyword is not present in the name, the organization is nevertheless listed under the subject because of keywords indicated in the description of the body in Volume 1.

Continental regions and sub-regions are included among the subject categories. Organizations are subdivided within each region according to major subject category. Note that organizations are included only if their title or description refers to that region, not because of their geographical location.

Organizational types are also included as subject categories. Examples are: banks; clubs; foundations; conference series.

Order: Each specific subject category is listed alphabetically under a major subject category, which is itself also listed alphabetically. If you are unable to locate the subject in which you are interested, the category may be determined via keywords listed in the index in the second part of this volume. Within each category, organizations are listed alphabetically.

Organizations: The name of the organization is normally given in English, followed by initials, if these exist. If there is no official English title, or if the organization is particularly concerned with another language, then another language title is used. The name corresponds to that of the organization description in Volume 1.

For each organization listed, the international secretariat address is given. When the address is preceded by the name of a person, it is that of the principal executive officer (Director, Secretary-General, etc.), as detailed in Volume 1. The address corresponds to that of the organization description in Volume 1.

Following the organization's address is its sequence number. This number can be used to locate the organization's description in Volume 1.

Comment utiliser ce volume

Le but du Volume 3 est de regrouper les organisations ayant des préoccupations ou des activités communes. Si le titre est connu, il est souvent plus aisé de se référer directement au Volume 1, où une description complète est reprise. Cependant, si le titre n'est pas précisément connu, on le retrouvera par les mots-clés ou par l'intermédiaire des groupes d'organisations indexées sous le sujet en question.

Dans la première partie de ce volume, la Section thématique, les notices sont groupées par ordre alphabétique du sujet au sein de catégories-sujets générales elles-mêmes classées par ordre alphabétique. Il est donc maintenant possible de se référer directement à un sujet donné sans avoir recours à la deuxième partie de ce volume, l'Index. Si le terme cherché n'est pas répertorié parmi les titres de catégorie-sujet, l'index peut être utilisé afin de trouver le titre sous lequel le terme est classifié.

Section thématique

Incluant : Ce volume reprend, pour chaque sujet visé, les organisations internationales dont le nom contient des mots-clés renvoyant à ce sujet. Il peut cependant se faire que, malgré l'absence de tels mots-clés du nom de l'organisation, celle-ci soit incluse dans le domaine concerné du fait des mots-clés repris dans le corps de la notice descriptive du Volume 1.

Au sein des catégories-sujets sont incluses des régions et sous-régions continentales. Les organisations sont réparties, pour chaque région, par catégorie-sujet principale. Notons que ces organisations sont sélectionnées uniquement si leur titre ou un mot-clé dans leur description fait référence à cette région et non en fonction de leur situation géographique.

Sont également incluses des catégories spécifiques d'organisations internationales. Par exemple: banques; clubs; fondations; ...

Classement: Chaque sujet est incorporé, par ordre alphabétique, dans une catégorie-sujet principale, qui est aussi classé par ordre alphabétique. Toutefois, si l'utilisateur ne parvient pas à localiser le sujet qui l'intéresse, la catégorie concernée peut-être déterminée par le biais des mots-clés qui figurent dans l'index dans la deuxième partie de ce volume. A l'intérieur de chaque catégorie, les organisations sont classées alphabétiquement.

Organisations: Le nom est généralement donné en anglais, suivi du sigle. S'il n'existe pas de titre officiel anglais, ou encore si les activités d'une organisation concernent plus particulièrement une autre langue, on utilisera le titre en cette langue. Le nom est repris de la notice descriptive parue dans le Volume 1.

Chaque organisation sélectionnée est reprise avec l'adresse du secrétariat international. Lorsque l'adresse est précédée d'un nom de personne, il s'agit du responsable principal (Directeur, Secrétaire général, etc.) tel qu'indiqué dans le Volume 1. L'adresse correspond à celle parue dans le Volume 1.

Le numéro de séquence suit l'adresse de l'organisation. Ce numéro peut être utilisé pour trouver la description de l'organisation dans le Volume 1.

The following distinctions are made:

- *Intergovernmental organizations (IGOs)*: The title and organization type are printed in bold characters. If the keyword is in the title of the organization, then the sequence number is also printed in bold characters.
- *Non-governmental organizations (NGOs)*: The title (but not the organization type) of the organization is printed in bold characters. If the keyword is in the title of the organization, then the sequence number is also printed in bold characters.

Overlap: The same entry may appear under more than one subject entry. This will arise when the title of the international organization, or keywords in the description in Volume 1, indicate a preoccupation with several subjects.

Index

This index includes in a single alphabetic sequence subject categories and direct links to organizations described or listed in Volume 1.

Organization names: Organizations are listed in this index under each significant word in their titles. Only organizations of types A, B, C, D, E, and F are included here.

Organizations with descriptions in Volume 1 have their sequence number listed following the title (e.g. "#01234"). An organization with no description in Volume 1 is followed by either a reference to the organization in whose description further information can be found, or by an explanatory text.

Non-significant or frequently occurring words do not appear as keywords, the latter in particular if they are the same as a subject category.

Abbreviations of organizations, former names and abbreviations, and alternative names and abbreviations are not included in this index, but in the alphabetic order in Volume 1. Names of executive officers of organizations can be found in Volume 6.

Subject keywords: Keywords appearing in titles and descriptions of organizations are assigned to a specific subject heading, which itself is grouped under one of the major subject categories. Keywords in this index are referred to the relevant subject heading.

The major categories for classification purposes are indicated in the matrix on page xi; and specific subjects appear within these categories. For example, "schools" is grouped within "Education/Schools". The major subjects are listed alphabetically at the beginning of the volume, specific subjects within the classification also being shown. The organization of the table is discussed in detail in the essay "Functional classification" which can be consulted at www.uia.org.

On distingue:

- *Les organisations intergouvernementales (IGOs)*: Le nom et type d'organisation sont imprimés en caractères gras. Si le mot-clé se trouve dans le nom de l'organisation, le numéro de séquence est aussi imprimé en caractères gras.
- *Les organisations non-gouvernementales (NGOs)*: Le nom (mais pas le type d'organisation) est imprimé en caractères gras. Si le mot-clé se trouve dans le nom de l'organisation, le numéro de séquence est aussi imprimé en caractères gras.

Interférences: La même notice est susceptible de figurer à la fois dans plusieurs catégories sujets. Ce genre de répétition se produit lorsque le nom de l'organisation, ou les mots-clés dans la notice descriptive, révèlent des buts eux-mêmes multiples.

Index

L'index comprend, en une seule séquence alphabétique, les catégories-sujets et les liens directs aux organisations décrites ou indexées dans le Volume 1.

Noms des organisations : Les organisations sont reprises dans l'index sous chaque mot significatif de leurs titres. Seule les organisations du type A, B, C, D, E, et F sont reprises dans cet index.

Les organisations avec notice descriptive dans le Volume 1 sont suivies du numéro de référence de la notice (par ex. "#01234"). Une organisation sans notice descriptive dans le Volume 1 est suivie par une référence à une autre organisation où l'information peut être trouvée, ou bien par un texte explicatif.

Les mots non-signifiants (p ex association, bureau) sont rejetés, en particulier s'ils sont aussi répertorié parmi les catégories-sujets générales.

Les initiales des organisations, les anciens noms et initiales, et les noms et initiales alternatifs des organisations ne sont pas repris dans cet index, mais dans l'ordre alphabétique du Volume 1. Les noms des principaux responsables des organisations peut être trouvés dans le Volume 6.

Mots-clés : Les mots-clés qui apparaissent dans les noms et descriptions d'organisations sont repris sous un terme générique spécifique qui, à son tour, est intégré dans une des catégories-sujets principales. Les mots-clés de l'index renvoient à la sous-catégorie spécifique concernée.

Les catégories-sujets principales ont été regroupées et classées dans le tableau "matrix" (voir page xi). Les sujets spécifiques apparaissent dans ce classement. Par exemple, "schools" est indiqué dans la catégorie-sujet "Education/Schools". Les catégories-sujets principales sont reprises par ordre alphabétique au début de ce volume et les sujets spécifiques relatifs à cette classification sont également indiqués. L'organisation de ce tableau est expliquée en détail dans le texte "Functional classification" qui peut être consulté à www.uia.org.

If an organization's title or description mentions a geographical region it will also appear, sub-classified by major subject category, under a regional heading. For example, an organization mentioning "Caribbean", "schools" and "economics" will be listed under "Caribbean/Education" and "Caribbean/Economics".

Note that the list of subjects was established not only by using the titles and activities of international organizations and multilateral treaties, but also by using the world problems, human values, strategies, and human development concepts and modes of awareness identified in the Encyclopedia of World Problems and Human Potential.

The subject index also includes non-English words which, in this edition, do not appear in any entries included in this volume. Most English words not appearing in any entry are, however, excluded. To avoid needless repetition, adjacent words with similar coding have also been eliminated from the index.

Note:

To assist clarity and reduce repetition in the index, frequent keywords in titles are mentioned once, their repetition being indicated by a dash (–).

S'il est fait mention d'une région géographique dans le nom ou la description d'une organisation, celle-ci apparaîtra également dans une sous-catégorie régionale intégrée dans une catégorie-sujet principale. Par exemple, une organisation qui mentionne "Caribbean", "schools" et "economics" sera indiquée sous "Caribbean/Education" et "Caribbean/Economics".

Il faut noter que l'ensemble des sujets indiqués a été défini en tenant compte des noms des organisations internationales, des traités multilatéraux, ainsi que des problèmes mondiaux, valeurs humaines, stratégies, concepts de développement humain et modes de prise de conscience répertoriés dans *l'Encyclopedia of World Problems and Human Potential*.

L'index thématique comprend aussi des termes autres qu'en anglais qui, dans la présente édition, ne sont repris nulle part ailleurs. Par contre, la plupart des mots anglais qui n'apparaissent dans aucune notice ont été exclus de l'index. Afin d'éviter des répétitions inutiles, les mots qui y sont apparentés ont également été supprimé de l'index.

Note:

A des fins de clarification et en vue d'éviter les répétitions dans l'index, les mots-clés qui reviennent souvent dans les noms sont mentionnés une seule fois, et leurs répétitions sont indiquées par un trait d'union (–).

Codes used

Number codes

Organization descriptions are numbered sequentially (e.g. •00023) following the alphabetical order. It is this number that is used in any cross-reference or index referring to the entry (e.g. •00023). Organizations are renumbered sequentially for each edition. The number is therefore not a permanent reference point from one edition to the next. The permanent number (e.g. B2345) by which organizations were ordered prior to the 29th edition now appears (for information only) at the end of the description. It continues to be used for computer-based editorial purposes.

Letter codes in upper case

Organizations are coded by type, indicated by a single upper case letter printed in bold at the end of the description. In brief, these type codes have the following significance:

- A = federations of international organizations
- B = universal membership organizations
- C = intercontinental membership organizations
- D = limited or regionally defined membership organizations
- E = organizations emanating from places, persons or other bodies
- F = organizations having a special form, including foundations, funds
- G = internationally-oriented national organizations
- H = inactive or dissolved international organizations
- J = recently reported or proposed international organizations
- K = subsidiary and internal bodies
- N = national organizations
- R = religious orders, fraternities and secular institutes
- S = autonomous conference series
- T = multilateral treaties and agreements
- U = currently inactive non-conventional bodies

For further information, see the Appendix: "Types of organization".

Letter codes in lower case

The type code may be preceded by a letter code printed in lower case. These codes have the following significance:

- b = bilateral
- c = conference series
- d = dissolved, dormant
- e = commercial enterprise
- f = foundation, fund
- j = research institute
- n = has become national
- p = proposed body
- s = information suspect
- v = individual membership only
- x = no recent information received
- y = international organization membership

Asterisks

- *Intergovernmental organizations*: An asterisk as the final code in the description indicates the organization is intergovernmental.
- *Translated organization names*: An asterisk following the name of an organization indicates a title that has been translated by the editors for the purposes of multi-lingual indexing.

Codes utilisés

Codes numériques

Les notices descriptives sont numérotées dans l'ordre séquentiel qui suit l'ordre alphabétique. Le numéro apparaît à la droite du titre de chaque notice (p.ex. •00023). Toute référence donnée renvoie exclusivement à ce numéro (p.ex. •00023). Cela a pour conséquence que chaque édition de l'Annuaire a sa numérotation propre. Le numéro n'est donc plus permanent, faisant un lien entre les différentes éditions. Le numéro permanent de référence (p.ex. B2345) qui était propre à chaque organisation jusqu'à la 29^{ème} édition apparaît désormais (à titre d'information) à la fin de la description. Il continue à être utilisé pour des raisons de facilité d'ordre interne.

Codes alphabétiques: lettres majuscules

Les organisations sont codifiées par catégorie à l'aide d'une lettre majuscule en caractère gras, apparaissant à la fin de la notice descriptive. Voici leur signification:

- A = fédérations d'organisations internationales
- B = organisations à membrariat universel
- C = organisations à membrariat intercontinental
- D = organisations à membrariat limité ou régional
- E = organisations émanantes de lieux, de personnes ou d'autres organes
- F = organisations ayant une forme particulière, y compris fondations, fonds
- G = organisations nationales à orientation internationale
- H = organisations internationales dissoutes et inactives
- J = organisations internationales récemment rapportées ou proposées
- K = organes subsidiaires et internes
- N = organisations nationales
- R = ordres religieux, fraternités et instituts séculaires
- S = séries de conférences autonomes
- T = traités et accords multilatéraux
- U = organes non-conventionnels momentanément inactifs

Voir aussi l'Annexe: "Types d'organisation".

Codes alphabétiques: lettres minuscules

Le code de la catégorie peut être précédé par une ou deux lettres minuscules. Voici leur signification:

- b = bilatérale
- c = série de conférences
- d = inactive, dissoute
- e = entreprise commerciale
- f = fondation
- j = institut de recherche
- n = devenue nationale
- p = organisation en projet
- s = information suspecte
- v = membres individuels seulement
- x = aucune information récente
- y = ayant comme membres des organisations internationales

Astérisques

- *Organisations intergouvernementales*: Un astérisque à la fin de la description indique la nature intergouvernementale de l'organisation.
- *Traduction du nom d'organisation*: Le titre d'une organisation suivi d'un astérisque indique que la traduction de ce titre a été faite par la rédaction pour l'indexation multi-lingue.

Abbreviations used

Function names

Title of organization officers may be abbreviated as follows:

Admin	Administrator
CEO	Chief Executive Officer
Dir	Director
Dir Gen	Director General
Exec Dir	Executive Director
Exec Sec	Executive Secretary
Gen Sec	General Secretary
Hon Sec	Honorary Secretary
Pres	President
Sec	Secretary
Sec-Treas	Secretary-Treasurer
SG	Secretary-General
Vice-Pres	Vice-President

Organization forms

NGO	non-governmental organization
IGO	intergovernmental organization

Names of countries

The names of countries given in each entry or in the index may not be the complete official names of those countries as abridged names are used to simplify consultation. In a few cases, such as in the description of an organization's history, it has been considered appropriate to leave the old form of a country's name.

Note

It is not the intention of the editors to take a position with regard to the political or diplomatic implications of geographical names or continental groupings used.

The geographical names used in this publication are chosen for the sake of brevity and common usage. Wherever possible, the country (or territory) name preferred by the organization concerned is used, providing this is possible within the limits of standardization required for mailing or statistical purposes. It is important to note that some organizations insist on the inclusion of territories on the same basis as countries, or on the inclusion of countries or territories that are not recognized by other organizations.

Political changes over the years may lead to some questions in an organization's description. Briefly: countries referred to in an organization's description retain their old form when referring to a date prior to the change – for example, towns referred to in events prior to 1991 still retain their country as German DR (Democratic Republic) or Germany FR (Federal Republic), while subsequent dates refer simply to Germany.

Abréviations utilisées

Fonctions et titres

Les fonction ou les titres des directeurs peuvent être abrégés de la façon suivante:

Admin	administrateur
CEO	Chef de l'exécutif
Dir	directeur
Dir Gen	directeur général
Exec Dir	directeur exécutif
Exec Sec	secrétaire exécutif
Gen Sec	secrétaire général
Hon Sec	secrétaire honoraire
Pres	président
Sec	secrétaire
Sec Treas	secrétaire-trésorier
SG	secrétaire général
Vice-Pres	vice-président

Formes d'organisation

NGO	Organisation non-gouvernementale
IGO	Organisation intergouvernementale

Noms de pays

Les noms des pays apparaissant dans chaque notice ou dans l'index ne correspondent pas toujours exactement à l'appellation officielle de ces pays. Des abréviations ont été utilisées pour faciliter la lecture. Dans quelques cas, par exemple dans la partie historique, il a été jugé préférable de conserver l'ancien nom du pays cité.

Note

Il n'entre pas dans les intentions des éditeurs de prendre position au regard des implications politiques ou diplomatiques résultant du choix et de l'utilisation des noms géographiques ou de groupements continentaux.

Le choix des noms géographiques – pays ou territoires – dans cet ouvrage est fait en fonction de leur brièveté et de l'usage commun. Dans la mesure du possible, c'est le nom tel qu'adopté par l'organisation qui est retenu, mais seulement dans les limites d'une normalisation nécessaire pour les services postaux ou les statistiques. Il est important de rappeler que certaines organisations insistent sur l'inclusion de territoires au même titre que les pays ou sur l'inclusion de pays et de territoires qui ne sont pas reconnus comme tels par d'autres organisations.

Les changements politiques au cours des années peuvent poser de questions pour la description des organisations. En résumé: les pays mentionnés dans la description d'une organisation ont gardé leur ancienne appellation dans le cas où l'on se réfère à une date antérieure au changement – par exemple, la section "Events", qui concerne le passé, conserve la vérité historique de la division de l'Allemagne d'avant 1991. Dans les adresses, les pays sont mentionnés sous leur nouveau nom.

Warning

Coverage

The Yearbook attempts to cover all "international organizations", according to a broad range of criteria. It therefore includes many bodies that may be perceived as not being fully international, or as not being organizations as such, or as not being of sufficient significance to merit inclusion. Such bodies are nevertheless included, so as to enable users to make their own evaluation in the light of their own criteria. See the Appendix "Types of organization" for further information.

Sources

The descriptions of organizations in this Yearbook are based on information received from a variety of sources. Priority is normally given to information received from the organizations themselves, and every effort is made by the editors to check this information against other sources (periodicals, official documents, media, etc.). Organizations may over time change their purpose or characteristics. The editors therefore use information from a variety of sources to present the most appropriate static picture of what is essentially a dynamic situation. See the Appendix "Editorial problems" for further information.

Reliability of sources

Because an organization's view of itself has been given priority, and because secondary sources confirming this view are not always available or reliable, the editors cannot take responsibility for any resulting inaccuracies in the information presented. The editors apologize for any inconvenience this might cause the user. See the Appendix "Editorial problems" for further information.

Censorship

Users should be aware that the editors are subject to pressure from some international bodies to suppress certain categories of information. In most cases, the editors resist these pressures; in some cases, the entry is reworded to respect the concern of the body in question. No entries have been eliminated as a result of such pressure. See the Appendix "Editorial problems" for further information.

Evaluation

The final evaluation of the information presented here must be left to the users of this volume. See the Appendices "Contents of organization descriptions", "Types of organization" and "Editorial problems and policies" for further information.

Avertissement

Contenu

L'objectif du *Yearbook of International Organizations* est de couvrir tous les types d'organisations internationales, à partir d'un large éventail de critères. On peut donc y trouver des organismes qui, selon certaines définitions plus étroites, n'y auraient pas place – pas assez "internationaux" par exemple, ou pas une "vrai" organisation, ou d'importance trop réduite. Voir aussi Annexe: "Types of organization".

Sources

La description des organisations telle qu'elle est présentée dans ce Yearbook est basée sur un ensemble de sources différentes. Priorité est normalement donnée à l'information reçue des organisations elles-mêmes, et en même temps tous les efforts sont faits par la rédaction pour contrôler cette information à l'aide d'autres sources (périodiques, documents officiels, médias, etc). Il peut arriver, qu'au cours des années, des organisations modifient leurs objectifs ou changent leurs caractéristiques. Les rédacteurs du *Yearbook* recueillent des informations auprès de multiples sources afin de présenter de façon appropriée, mais inévitablement statique, la physionomie d'une situation essentiellement dynamique. Voir aussi Annexe: "Editorial problems".

Fiabilité des sources

Quoiqu'il en soit, l'évaluation finale de l'information présentée incombe à l'utilisateur qui l'établira à la lumière de ses critères personnels. La rédaction décline toute responsabilité pour les inexactitudes qui se glisseraient dans l'information présentée et s'excuse des inconvénients qui pourraient en découler pour l'utilisateur. Voir aussi Annexe: "Editorial problems".

Censure

Peut-être est-ce le lieu de rappeler ici que, en ce qui concerne certaines catégories d'information, la rédaction du Yearbook est l'objet de pressions de la part d'organisations qui en demandent la suppression. Dans la plupart des cas, la rédaction du Yearbook résiste à de telles pressions. Sinon, mention est faite de la préoccupation de l'organisation concernée. Aucune notice n'a été éliminée du fait d'une quelconque pression. Voir aussi Annexe: "Editorial problems".

Evaluation

L'évaluation finale de l'information présentée dans ce volume est laissée aux utilisateurs. Voir aussi les Annexes "Contenu des notices descriptives", "Types d'organisation" et "Politique rédactionnelle".

Appendix 1 – Table 1

Number of international organizations by type

Edition 54, 2017/2018 (data collected in 2016)

Presented in this table is the number of international organizations currently listed in the database of the *Yearbook of International Organizations*. The organizations are totalled by type (see the Appendix "Types of organization") and by whether they are intergovernmental or not. In addition, totals are given for certain groupings of types ("conventional", "other" and "special"). For other groupings of types, see Table 2.

This table suggests different answers to the question "How many international organizations are there?"

1. Conventional intergovernmental organizations, when attaching importance to the non-recognition of international non-governmental organizations in terms of international law. (Multilateral treaties, Type T, might be added as closely related international "instruments".)
2. Conventional international bodies, both governmental and non-governmental, when attaching importance to the existence of autonomous international bodies as a social reality.
3. Conventional bodies (Types A to D) plus special forms (Type F), when recognizing the importance of organizational substitutes and unconventional form. (To the latter might be added conference series, Type S, and multilateral treaties, Type T, as forms of organization substitute.)
4. Conventional bodies (Types A to D), special forms (Type F) and religious orders (Type R), when attaching importance to the social reality of the latter as independent actors.
5. Conventional bodies (Types A to D), other international bodies (Types E to G), religious orders (Type R), and multilateral treaties (Type T), when recognizing the international impact of semi-autonomous and nationally tied organizations. (Documentalists might also include inactive bodies, Type H, which figure in the "authority lists" of international organizations.)

For further statistical summaries and other presentations of this data see Volume 5: *Statistics, Visualizations and Patterns*.

Appendix 1 – Table 2
Number of international organizations by cluster
Edition 54, 2017/2018 (data collected in 2016)

This table gives the same data as Table 1 but groups the types of organizations according to the “clusters” defined for and used in the Volume 5. As in Table 1, the organizations are also totalled by type (see the Appendix “Types of organization”) and by whether they are intergovernmental or not. The notes for Table 1 also apply here.

For further statistical summaries and other presentations of this data see Volume 5: *Statistics, Visualizations and Patterns*.

Appendix 1 – Table 3
Number of international organizations by subject groups
Edition 54, 2017/2018 (data collected in 2016)

This table indicates the total number of entries (organizations) allocated to each detailed subject category. Totals are given for each level of the matrix (see the Introduction to this volume), and the position of each matrix cell is indicated in parentheses. For each subject category is listed the number of organizations allocated to that category, based on keywords in the organization descriptions in Volume 1. A distinction is made between intergovernmental (IGO) and non-governmental (NGO) organizations, and the total is given.

For further statistical summaries and other presentations of this data see Volume 5: *Statistics, Visualizations and Patterns*.
